Roller-Bearing Swivel, SKLI/SKLU

The Gunnebo Industries SKLI/SKLU is an electrically insulated, lubricated, and sealed roller bearing swivel. It is fully rotational, even at maximum load, tested to resist 1000 V, and suitable for protection of overhead cranes during welding operations on suspended loads.

The SKLI is equipped with a durable roller bearing, enabling high durability and safe use, even under severe load. It also has heavy-duty nylon insulation to decrease friction when in use. The SKLI is compatible with the entire Gunnebo Industries SK range for versatile use.
